

Certification of REACH Compliance

Paulsson Inc. 7652 Haskell Ave, Van Nuys, CA, 91406-2005

Paulsson Inc.'s Fiber Stretcher product line is produced at 7652 Haskell Ave, Van Nuys, CA. All fiber stretcher products manufactured at this facility are devoid of any room temperature liquid or gaseous chemicals.

Only solids are present, which include one Substance of Very High Concern (SVHC), being Lead titanium zirconium oxide which is associated with PZT Piezo ceramics.

To our knowledge, this is not a REACH banned substance owing to a ROHS exemption Annex 3, element 7(C).
