

VARIABLE ANGLE CONTROL
ADAPTERS FOR VARIOUS FIBER DIAMETERS
ADAPTERS FOR CONNECTORS
PRODUCTION AND R&D APPLICATIONS
COST-EFFECTIVE PROCESSING

SPECIFICATIONS AND FEATURES

Polishing Performance

Angle Range¹
0 (flat) to 50 degrees
Angle Repeatability
± 0.5 degrees, typical
Polishing Motion
Random Orbital
Polishing Speed
User Adjustable
Film Size
4 inch Diameter

¹ Referenced off fiber diameter (i.e. 8° for APC style connector polish)

CONNECTOR ADAPTERS

INTERFACES WITH RADIANT™ POLISHER

FLAT, UPC AND ANGLE GEOMETRIES¹

ALSO SUPPORTS FERRULES AND LENSES

VARIABLE ANGLE POLISHING²

Expand Radian's™ versatility beyond bare fiber processing. Adapters are available for polishing a variety of industry standard and custom connector/ferrule types.

Note 1: Endface geometries not necessarily Telcordia.
Note 2: Angle range dependent upon ferrule protrusion.
