

SMA905 Connector(CONN)

Description

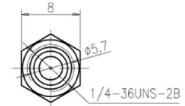

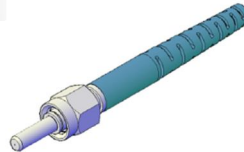

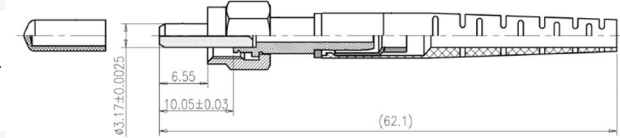

LightComm manufactures SMA905 connectors, patch cords, with the multimode fiber.

Features

- * High precision SMA905 assembly parts and ferrule
- * Can match many types of large core multi-mode fiber

Applications

- * Pump pigtail
- * Industrial laser processing
- * Medical laser application
- * High power transmission system

单位: mm

Specifications

Parameter	SMA905 Connector	
Operating wavelength (nm)	915 or other	
Ferrule material	Ceramic (default) Or Metal	
High power	Fiber type	Max power handling (W)
	Nufern-MM-S105/125-0.22NA	50
	Nufern-MM-S200/220-22A Nufern-MM-S400/440-22A	100
Operating temperature (°C)	-40 ~ + 85	

- * The fiber type can be chosen according to customer request .
- * The metal ferrule of SMA905 is divided into flat and groove structure, which is used only for free space connection (empty)
- * According to Telcordia GR-326-CORE.
