"Innovations for a Fiber World"

FOCP-1 Field Polisher

This product is based upon our exclusive final polishing process that we designed for our Mass production polishers. It is utilized in the field and in the lab as a final "touch up" polisher.

- **This product will lower back reflection from -35db to -55 to -60db in a matter of 5-8 seconds.**
- **It accommodates most 2.5mm and 1.25mm connectors.**
- **Rechargeable DC power source.**

It will also lessen any microscratches on the endface of the connector. It also works very well to clean the endface of any connector that has any minor flaws.

Advantages:

- Re-polish connectors to Bellcore Specs in the field.
- Upgrade existing connectors to -55dB return loss in 4 - 8 seconds.

Features:

- Nicad Battery Operation
- 12 Second Timer
- Battery Charger
- Built-in Puck Assembly
- FC, SC, ST Compatible
- Replaceable Polishing Pads
- Durable Package
